

### Computing

Children will select and use a variety of software. They will learn to use technology responsibly. We will be using Purple Mash for coding.

### Numeracy

Please refer to Website for End of Year Expectations

### Year Six Autumn Term Keep Calm and Carry On

### Physical Education

Children take part in a variety of games led by Hayley, our Manchester City Sports Coach.

### Science

#### Living things and their habitats

Children look at the history of classification of living things from Aristotle to the present day. They study the binomial system introduced by Linnaeus and the 7 levels of classification used today. They understand why classification is important & use and create classification keys.

### Literacy

- \*Short stories with flashbacks
- \*Power of imagery (poetry)
- \*Journalistic writing
- \*Diary writing

### Art/Design and Technology

Pupils will improve their mastery of art and design techniques, including drawing, painting and sculpture. They will create sketches to record their observations. Children will improve their mastery of art and design techniques, including working with clay. They will improve their mastery of art and design techniques, including drawing and sculpture.

### History and Geography

Children will know and understand significant aspects of the history of the wider world: when World War Two started and why it started. They will use various sources to explore which countries were involved and effected by World Wae Two. They will learn about bombing raids on Britain and how people protected themselves. The children will understand the need for evacuation and will find out the experiences and feelings of evacuees from a wide range of sources. The children will understand the effect of war on everyday life and will learn what rationing was and how it worked. The children will learn about how people celebrated the end of the war and will explore the purpose of the United Nations (link with the worldwide situation at present).
