

### Kirstie Oliver's Governor profile

I trained as Secondary School Drama Teacher in London, twenty years ago, and have worked as a Drama teacher since. I am passionate about the Arts in Education, it builds confidence and supports other subjects, as well as preparing the next generation of artists. I relocated to Manchester, when I met my husband. I currently have three children at St Anne's, twins in Year 6 and one in Reception. My children love coming to school, and I have been impressed with the well-balanced curriculum.

I was elected Community Governor in Summer 2019. I am looking forward to taking up the challenge of this new role. I will help in any way I can to support the school for the well-being of all our children in the school community. In my free time I enjoy spending time with family and friends, directing plays, writing and reading, usually about theatre practitioners!
